KENNETH ISAAC BERNARDINO

Software Engineer

WORK EXPERIENCE

SENIOR SOFTWARE ENGINEER

Feb 2022– Dec 2022

QBE GROUP SHARED SERVICES LIMITED

Managing internal and external development teams, I write efficient code. I create long-lasting components, troubleshoot for best performance, and describe code. I coach software developers to improve. To provide a forward-thinking and productive development environment, I actively explore process improvements, best practices, and new processes.

TECHNOLOGY CONSULTANT II

Aug 2019 – Feb 2022

DXC TECHNOLOGY PHILIPPINES

With OpenText Exstream, I help multinational enterprises build and manage unique solutions. I upgrade solutions and develop document generating procedures. I fix problems on several projects and help with quality and performance testing. To optimise solutions I create and manage, I prioritise quality control according to customer objectives.

SYSTEMS ANALYST

Oct 2018–Jul 2019

FUJI XEROX SINGAPORE PTE LTD

By using innovative digital technology and document management, I help clients communicate. Innovative software solutions and new methods using Objectif Lune's PReS/Planet Press Connect technologies are my duties. Debugging, functional testing, and application implementation provide smooth operations. Reporting and efficiency and quality SLA compliance are also my responsibilities. We use technology cleverly to guarantee our customers' connections are reliable and uninterrupted.

PROGRAMMER ANALYST

Aug 2014 –Oct 2018

DXC TECHNOLOGY PHILIPPINES

Through analysis, problem description, requirements, and solution formulation, I assess insurance application form operational feasibility. I embed business needs in javascript modules and utilise OpenText Exstream/Dialogue to produce letters and statements. To increase productivity, operations will be streamlined and automated printing used.

PROGRAMMER ANALYST

Aug 2019 – Feb 2022

RACAMI PHILIPPINES CORP.

Using bundled software, I design and create somewhat complicated projects. My technological expertise helps me comprehend customer demands in meetings. I plan the program's stages by reviewing analyst-provided programme requirements. Using application design to satisfy project needs and communicate with customers is my job.

ITO PROGRAMMER

Oct 2018–Jul 2019

RIPPLE EDGE DEVELOPMENT INC. (SEMA GROUP PTY LTD)

For the development and construction of business applications, I utilise packaged software programmes. As part of my job responsibilities, I apply what I've learned in school to assist clients in determining their needs and to read through detailed plan specifications in order to comprehend the program's processes and steps.
